NAVIGATE is an in-person event once again! We are bringing together top minds in the hospitality industry to network, share trends, explore new technology, and discover strategies for career and business growth.

This year, the conference includes a day and a half of keynotes from industry experts, thought-provoking break-out discussions, and a first-hand look at the latest product releases from Revinate.

The conference includes tracks where executives, marketers, reservation sales leaders, and revenue management professionals can learn and share insights.

Session topics include how to drive more direct bookings, the touchless guest experience, building revenue-generating programs, and future-proofing businesses through innovation.

Plus, you're invited to join us for an optional day of pre-conference training for a hands-on workshop designed for hospitality leaders.
